

## Cotton Kentucky mops

Raw material for KAPAS cotton products is sourced locally, with commitment to environmental stewardship and the well-being of local employees and communities.

**KAPAS cotton products are manufactured with attention to**

- Resource conservation by prioritizing efficient use of water, energy and other natural resources
- Waste minimization throughout the chain from raw material sourcing to finished products
- Sustainable sourcing of recycled, environment-friendly and sustainable materials that are free from toxins
- Pollution prevention with processes designed to minimize pollution

KAPAS manufactures 100% cotton Kentucky of premium long-fibre cotton that makes the mops very hard-wearing, highly absorbent and frequently washable.

The PY version is of a slightly shorter cotton fibre that is more loosely twisted. A little less hardwearing but even more absorbent.

The CC mop is made of a special yarn of the shortest cotton fibres. Ideal for use when working with lots of cleaning liquid, This the most absorbent type of yarn, that also wears the most.

## Cotton Kentucky mops

Tail band and looped ends

Cut ends without tail band

With scrub pad
